The International Attachment Network

## ATTACHMENT THEORY AND ITS CLINICAL APPLICATIONS

***A 9 DAY SEMINAR SERIES JANUARY 2024  
- NOVEMBER 2024***

**2 speakers a day &  
a facilitated clinical  
case study group**

**THE INTERNATIONAL ATTACHMENT NETWORK  
ARE PROUD TO SHARE WITH YOU A 9 DAY  
SEMINAR SERIES ON:**

## **ATTACHMENT THEORY AND ITS CLINICAL APPLICATIONS**

**The International Attachment Network promotes the fundamental role of attachment theory in all aspects of human connection. We advocate and educate on its application for improved outcomes in the fields of psychological health, healthcare, social care, education, public policy and beyond.**

**Established in 1992 by close colleagues of John Bowlby the founder of attachment theory, the International Attachment Network is a membership based educational charity, led by experienced clinicians and academics in the field of attachment theory.**

(incl. membership)

## BOOKING THROUGH EVENTBRITE

“

Attachment theory is a way of understanding why people need special affectional bonds with supportive others, from the cradle to the grave. It is also concerned with why and how the quality of attachment relationships in early life influence later development. It explains why disturbances in attachment relationships (including neglect, abuse, trauma and dysfunctional communications) affect mental health."

Mario Marrone
